LANDIFY — CUSTOMER SUPPORT KNOWLEDGE BASE

1. About Landify

Landify is an agricultural land and farming operations platform associated with MARKWAVE INDIA PRIVATE LIMITED. It supports digital farmer onboarding, land registration and verification, agricultural field operations, and crop-related information.

2. Main Application Features

Farmer Onboarding

The application supports registering and managing farmer profiles. The onboarding process may involve identity details, contact information, bank information, and relevant documents, according to the applicable workflow.

Land Registration and Verification

Users can record land information, capture location coordinates, document land boundaries, and upload supporting photographs and documents. Land verification helps assess the submitted land records and suitability for agricultural operations.

Application Review and Approvals

Agriculture Officers can review applications and approve or reject them with remarks, according to their assigned permissions.

Crop and Harvest Tracking

The platform supports monitoring crop cycles and harvest-related information, including yield estimates where available.

Role-Based Access

The application provides role-based access for users such as field agents and Agriculture Officers. Available screens and actions depend on the user's assigned role and permissions.

3. Farming and Partnership Models

The Landify website describes the following business offerings:

FOCO Model

FOCO means Farmer-Owned, Company-Operated. The website describes a partnership in which the farmer retains ownership of the land while the company manages cultivation

under the agreed partnership terms.

Contract Farming

The website describes cultivation support that may include saplings, cultivation guidance, field monitoring, and harvest procurement support.

Direct Procurement

The website identifies direct procurement as another farming business option. Exact eligibility, pricing, procurement terms, and payment conditions must be confirmed from the official business team.

4. Customer Support Rules

- Answer questions using verified Landify information.
- Explain features in simple, polite language.
- Do not invent registration steps, eligibility criteria, fees, prices, returns, payment dates, or approval timelines.
- Do not guarantee income, harvest yield, or investment returns.
- Do not claim that an application has been approved or a payment completed unless verified system data confirms it.
- For account-specific issues, direct the customer to the official support team.
- Never ask customers to share passwords or OTPs in chat.
- If the knowledge base does not contain the answer, explain that the detail needs confirmation.

5. Official Support Information

The public Landify website lists:

Website: https://landify.in/

Email: contact@landify.in

Phone: +91 70758 66239

Customers should use the official support channels for questions that require account verification or confirmation of business terms.

6. Suggested Chatbot Response Style

Keep answers short, clear, friendly, and relevant to the customer's question. Ask a follow-up question only when necessary. Distinguish general product information from personal account or application status.
